

Goodluck D. John (Golden)

Computer Science Student

goodluckjohn260@gmail.com • 0707 778 4147 • github.com/golden-tcd • golden-tcd.github.io/Golden---Portfolio-

SUMMARY

Computer Science undergraduate at the Nigerian Army University, Biu, with a background rooted in a love for how things work — originally drawn to mechanical engineering before discovering the same curiosity could be applied to software. Comfortable with Python and JavaScript, currently building skills in C++, with a growing portfolio of self-directed projects.

SKILLS

Languages: Python, JavaScript, C++ (learning)

Tools: Spck Editor, Visual Studio Code, Git & GitHub

Web: HTML5, CSS3, vanilla JavaScript

PROJECTS

Facial Recognition Access Control System

In development — primary final year project candidate

A system exploring facial identification and verification as an alternative to keys or access cards.

Commercial Website

Complete

Built the front-end and overall site structure for a website intended for commercial use.

Home Workout App

In development

An application concept for guiding workouts at home without gym equipment.

Personal Portfolio Website

Live — golden-tcd.github.io/Golden---Portfolio-

Designed and built from scratch with HTML, CSS, and JavaScript; deployed via GitHub Pages.

EDUCATION

Nigerian Army University, Biu — Faculty of Computing

B.Sc. Computer Science, In Progress

Coursework includes Computer Science, Physics, and Mathematics.
